HUMANITY'S NEXT FRONTIER

December 5, 2024
Renaissance Hotel Curaçao
5:30PM

END OF YEAR EVENT DECEMBER 5, 2024
NAVIGATING HUMANITY'S NEXT FRONTIER

OVERVIEW

The VBC organization warmly invites you to join us for our end-of-year event on December 5th at the Renaissance Hotel, as we embark on an exploration of the future with the conference: *“Humanity’s Next Frontier.”*

At this event, VBC reaffirms its commitment to fostering a robust partnership between the public and private sectors, working together to shape the vision of Curaçao’s future and beyond in the era of rapid artificial intelligence innovation. Across sectors—from public and private, to education, healthcare, and beyond—the stakes are higher than ever, urging us to consider: How can we, as a community of leaders, position Curaçao within a world advancing at exponential speeds?

Join us for an insightful afternoon featuring Anthony DeLima, Ernst & Young’s Americas Retail Technology Field of Play leader, who will guide us through the evolving landscape of human and machine innovation and its impact across various business sectors, sharing valuable lessons learned along the way.

Come and Meet our Virtual AI Avatars

KEY TOPICS

THE REALITIES

- Hype vs. Reality
- State of AI innovation
- Speed of innovation
- Regulatory landscape
- Must have capabilities

DEFINITIONS

- Understanding AI evolution
- LLM innovation
- Advancements in Robotics

SOCIO-ECONOMIC TRAJECTORY

- Education
- Supply-Chain & Logistics
- Retail
- Financial Services
- Manufacturing

PATH TO SUPER INTELLIGENCE

- Narrow AI acceleration
- Achieving human parity
- Genetic modeling
- Achieving AGI
- Path to Singularity

MANAGING ADOPTION

- AI risks
- Digital divide
- Preparing for change
